GOVERNMENT OF INDIA, NEW DELHI

MESSAGE

I am extremely happy to note that the Confederation of Organic Food Producers and Marketing Agencies (**Organic Kheti**) is working and supporting the Government's initiatives in encouraging the organic and processed food Industry of India. To facilitate the industry nationally and internationally, the proposed "**Organic India: A Ready Reckoner 2019 : A Handbook and Directory of Organic products Producers and Exporters & Importers**", will play a key role to benefit not only the farmers but all the stakeholders.

The Government with the vision to double agricultural exports to \$60 billion by 2022, has already approved the Agriculture Export Policy and all the restrictions on export of organic and processed food shall be lifted to pave the way for growth of this sector.

The Ministry of Commerce & Industry is likely to establish a central monitoring framework, having representation from other Ministries, Departments and Agencies as well as State Governments concerned to oversee the policy implementation.

I hope that the Confederation shall contribute constructively in implementing the policy. I also propose to the Confederation to help Government in strengthening further creation of cold chain infrastructure and logistics.

I wish the publications a grand success.

(Suresh Prabhu)
